MY HOUSE

You Will Need
Grid paper and
measuring tape

You Will Learn
Area

Create a scaled floor plan of your house.

1. Print off some grid paper.
2. Measure each room in your house and draw the floor plans of your house on grid paper.
3. Make each square on the grid paper equal 1 square metre of your house.
4. To make it more competitive, race against someone (adults get a handicap).
